Our favourite helicopter tour in Switzerland from Interlaken. Our experience the imposing Eigerordwand on your helicopter tour and then fly on the southern side of Eiger-Mönch-Jungfrau past the Concordiaplatz to the Aletsch Glacier and the Petersgrat air Glacier. If possible, a landing is made on the mountain terrain at 10500 ft (3203m). On the return flight, you can enjoy the view of the Schilthorn and the great view of the fascinating mountain scenery.

The route can be discussed on the spot with the pilot. This depends on the weather and of course aviation safety, otherwise the pilot attempts to fulfill your wishes in compliance with the flight time.

Bookable 365 days a year!

Attention: This sightseeing flight is without landing on the Jungfraujoch. The Glacier landing is in a different location.

Weather: In case of bad weather you will get your money back.

Shuttle: Optional from Hotel to the Heliport on request

Duration of the experience:
The flight time is 25-30 minutes. Hotel to hotel 3 hours
